AI Product Portfolio

HONORS

23 awards in hackathons, design and entrepreneurship

2 patents; first-named inventor (utility model and design)

China Computer Design Contest
China-US Young Maker Contest
iF Top 300 | A' Design Award

Master

Bachelor Exchange

Zhejiang University

Master's in Industrial Design Engineering | GPA: 3.75/4.00

Fuzhou University

Bachelor's in Industrial Design | Overall rank: 2/61

KTH Royal Institute of Technology | Exchange student

2024 - Jun 2027

2020 - Jun 2024

AI / Data: Agent design, generation evaluation, AIGC, NLP, SQL, Python

Product / Design: PRDs, UI iteration, business analysis, MVPs, QFD, Figma, Axure

WORK EXPERIENCE

Product Manager Intern Microsoft (PowerPoint AI / Agent)

May 2026 - Present

- **Brand generation:** Owned the PDF-to-PPT concept and reusable brand-rule/asset framework. Delivered research, PRD/specs and an MVP; **validated branded generation** and advanced engineering review.
- **Evaluation MVP:** Independently built issue aggregation and evidence drill-down; **analyzed 14 cases in ~15 minutes and identified 10 key low-score drivers** in internal review.
- **Quality framework:** Co-built boundary and functional tests covering **12 brand capabilities and 39 element-level cases**; established a regression baseline and reproducible quality issues.
- **Agent recommendations:** Co-designed Copilot's scenario-to-task framework and task supply. Owned testing and iteration using clicks, task completion and feedback to assess Agent-use conversion.

Co-founder Acuispire (HK) & Qidian Yueqian (Hangzhou)

May 2025 - Aug 2025

- **Product MVPs:** Built Otter's Home for one-minute interior design and furniture matching, and PiLive for live product recognition and one-click posters.
- **0-to-1 delivery:** Gathered requirements from 27 Shenzhen businesses; defined PRDs, SKU/SPU data structures and demos, and coordinated engineering delivery.
- **AI workflows:** Built prompt, camera and rendering standards, plus style and furniture model libraries.
- **Quality-cost trade-offs:** Compared 10+ APIs on quality, cost and control; redesigned product logic to **cut image-generation cost for one feature by ~70%**.
- **Recognition:** Microsoft startup fund and ByteDance AI platform support; Liangcang investment-potential award; HCI paper with the PolyU-NVIDIA joint lab (submitted).

Product Manager Intern iFLYTEK (B2B AI Healthcare)

Dec 2023 - Feb 2024

- **Product delivery:** Supported CDSS, VTE and medical-record quality control. Adapted UI logic for hospitals and provincial users; benchmarked competitors, wrote user manuals and built simulated HIS environments with Excel/SQL for testing.

Product Manager Intern Hello (Consumer Products)

Mar 2024 - Aug 2024

- **User insights:** Turned 400+ feedback items into product metrics and competitor benchmarks; informed seat-angle and firmness improvements for the Cloud Bike. **Innovation:** Supported storage-footrest research, PRDs and A/B tests; summer projects lifted turnover by **2 pp for bicycles and 1.8 pp for e-bikes**.

RESEARCH EXPERIENCE

2 national innovation projects | 3 EI-indexed papers | ICDF delegate | 7+ student roles

- **KTH exchange:** Huddinge research; Armada host team; KTH Global and Chinese student association roles.
- **AI Hanfu try-on:** Built 3 workflows, optimized 2; **generation time -20%, output quality +28%**.
- **Digital waste management:** Student lead; added carbon accounts and used SPSS to support a carbon database.
- **Nanyang Technological University:** AI and valuation programme; credit ratings and regression with R/Python/Heroku; sole outstanding team.
